Eric Prive

Dear Mr. Prive

This is to advise you that water service can currently be made available to the 70 Unit apartment building, located at 2 Fairfield Way, South Kingstown, Rhode Island, using a projected max daily demand of 23,920 GPD , subject to the following conditions:

- 1) Prior to the installation of any services or the extension of any mains, hydraulic data pertinent to the project must be provided to us, for our Engineering Department review and approval.
- 2) If, as a result of such review, it is decided that any extension of mains or pipes or modification of other facilities is required in order to meet the hydraulic needs of the project, those mains or facilities will be installed or extended by you in accordance with the terms and conditions of this Company's standard agreements for extensions.
- 3) Service will be provided in accordance with the terms and conditions set forth in the Company's filed Tariff, as amended or modified from time to time.
- 4) Water mains shall be laid in accordance with the Recommended Standards for Water Works (a.k.a. Ten State Standards).

This willingness to serve letter is contingent upon Veolia Water Rhode Island having County, State and Federal regulatory authorization to provide the requested water service and is valid for nine (9) months from the date of issuance. If the main installation/extension or service installation is not completed and approved by Veolia Water Rhode Island within nine (9) months from the date this letter is issued, this willingness to serve letter will expire, and it will be necessary for you to request a new willingness to serve letter.

Please contact me at 401-228-5912 if you need additional information.

Very truly yours,

A handwritten signature in black ink, appearing to read "Patrick Grant", written over a horizontal line.

Patrick Grant
Superintendent
