RE: McGuirl Subdivision Affidavit  
A.P. 58-1 / Lot 84

Honorable Members,

This correspondence affirms that there are no freshwater wetlands nor any coastal features located on this one and one half acre residential parcel of land located between Seaview and Summit Avenues in South Kingstown.

This is based on both the lack of any vegetative community above and the lack of any hydric presence below in the underlying soils.

The landlocked property sits, as its name suggests, at the summit of a geological landform overlooking Narragansett Bay at an elevation one hundred and fifty feet above sea level.

CERTIFICATION OF PROFESSIONAL I certify that I have inspected the subject property and its surroundings and do hereby attest that to the best of my knowledge, in accordance with the Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act, 250-RICR-150-15-1, there are no freshwater wetlands existing on the parcel being subdivided. It is also proclaimed the are no coastal features on the property.

Best Regards,

Jeffrey J. Campopiano, P.E.
